

Mandatory cyber requirements under Articles 3.3 (d), (e), and (f) take effect on 1 August 2025. Get compliant in days, not months, with Finite State's tiered RED certification services.

"Finite State turned RED compliance from a road-block into a 10-day sprint. The continuous scans keep us ahead of CRA, too."

The Compliance Gap

2025 Reality

New RED cyber clauses enforced, EN 18031 now harmonized

Traditional Lab Offer

"Test-only" bundles for \$17-29k, pass/fail PDF, no guidance

The Finite State Solution

RED Quick-Test from \$19.5k delivers pass/fail + root-cause fix plan, SBOM, and CRA-ready evidence

Results That Matter

83%

defect reduction
in first re-test cycle
(avg. across pilot devices)

50%

faster time-to-certificate
vs. traditional labs (10-days vs. 20-day mean)

55% +

gross margin preserved
thanks to platform automation

Why Finite State?

- **Binary-Native Analysis** – Digs into firmware that source-code tools can't see
- **SBOM-Driven Evidence** – Aligns with EN 18031, CRA & U.S. Cyber Trust Mark for cross-framework compliance
- **Continuous Vulnerability Monitoring** – Meet post-market obligations ignored by test labs
- **NB Ready Documentation** – We package results for your chosen Notified Body

 **10-day turnaround**

 **3 tiers**

 **1 trusted partner**

How the Engagement Works

Upload firmware & docs:
Secure cloud ingest

Automated firmware analysis:
SBOM & CVE map in hours

Hands-on functional testing:
Network resilience, privacy,
fraud

Actionable report:
Clause-by-clause results +
Jira-ready tickets

Continuous monitoring:
Alerts on new vulnerabilities
for the product's lifecycle

Tiered Service Packages

Package	Lead Time	Scope & Deliverables	Launch Price
RED Quick-Test	10 business days	<ul style="list-style-type: none"> Binary SCA/SAST EN 18031 functional tests Pass/fail + evidence report 	\$19,500
RED Plus	15 business days	Quick-Test + <ul style="list-style-type: none"> Remediation roadmap 1 free re-test Draft DoC 	\$29,500
RED Assure (12 mo)	Kick-off + subscription	Red Plus + <ul style="list-style-type: none"> Platform license Monthly CVE watch NB liaison 	\$39,500

Beat the August '25 deadline. Book a 30-minute scoping call and receive a customized quote within 24 hours.
